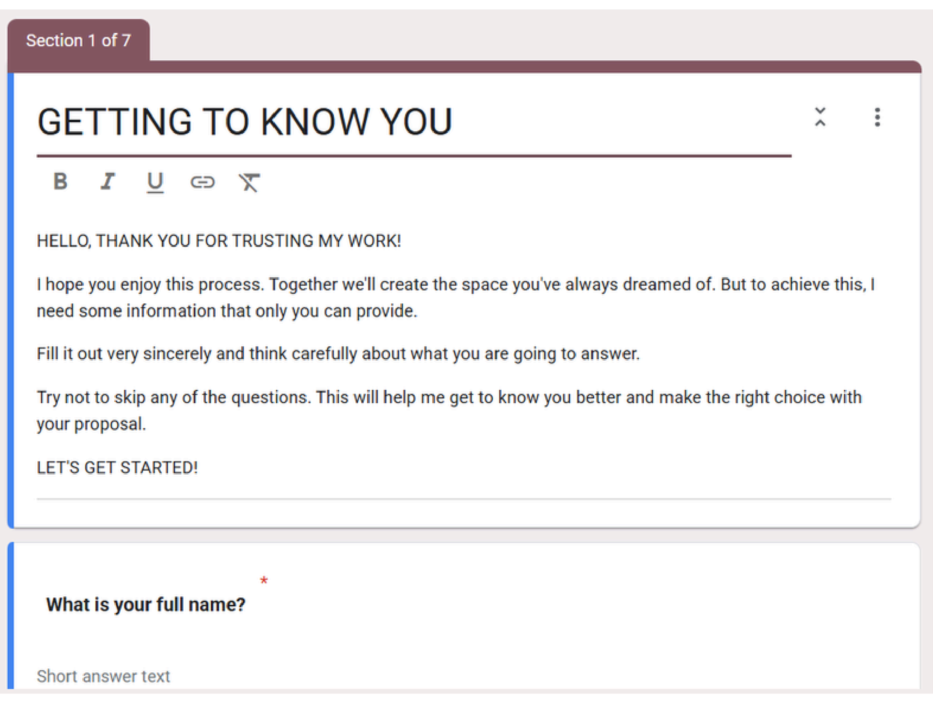
- Full spaces: your entire home or apartment.

Step 1 – Fill Out the Form

You'll share details about your space, lifestyle, preferences, and budget. Photos and measurements will also help me understand your needs.



Step 2 – Concept & Moodboard

I'll create a design concept and moodboard with furniture, lighting, textiles, and decor ideas tailored to your style.

Step 3 – Design Development

We'll refine the selections together. I'll prepare a curated list of furniture and decor, ensuring harmony, functionality, and warmth.

Step 4 – Visualization

You'll receive layout suggestions and/or 3D views to better visualize how the furniture and decor will transform your space.

Step 5 – Shopping & Styling

I'll provide you with a curated shopping list with links so you can purchase everything directly. If you're in the U.S., I'll manage the purchasing, coordinate deliveries, and oversee the professional installation and final styling of your space.
