Step 1 – Fill Out the Form

You'll receive a personalized form where you'll share details about yourself, your space, your daily routines, what you like (and don't like), as well as photos, measurements, and inspiration references.

Step 2 – Concept & Moodboard

Based on your answers, I'll create the design concept, moodboard, and initial ideas — including color palettes, textures, and layout suggestions.

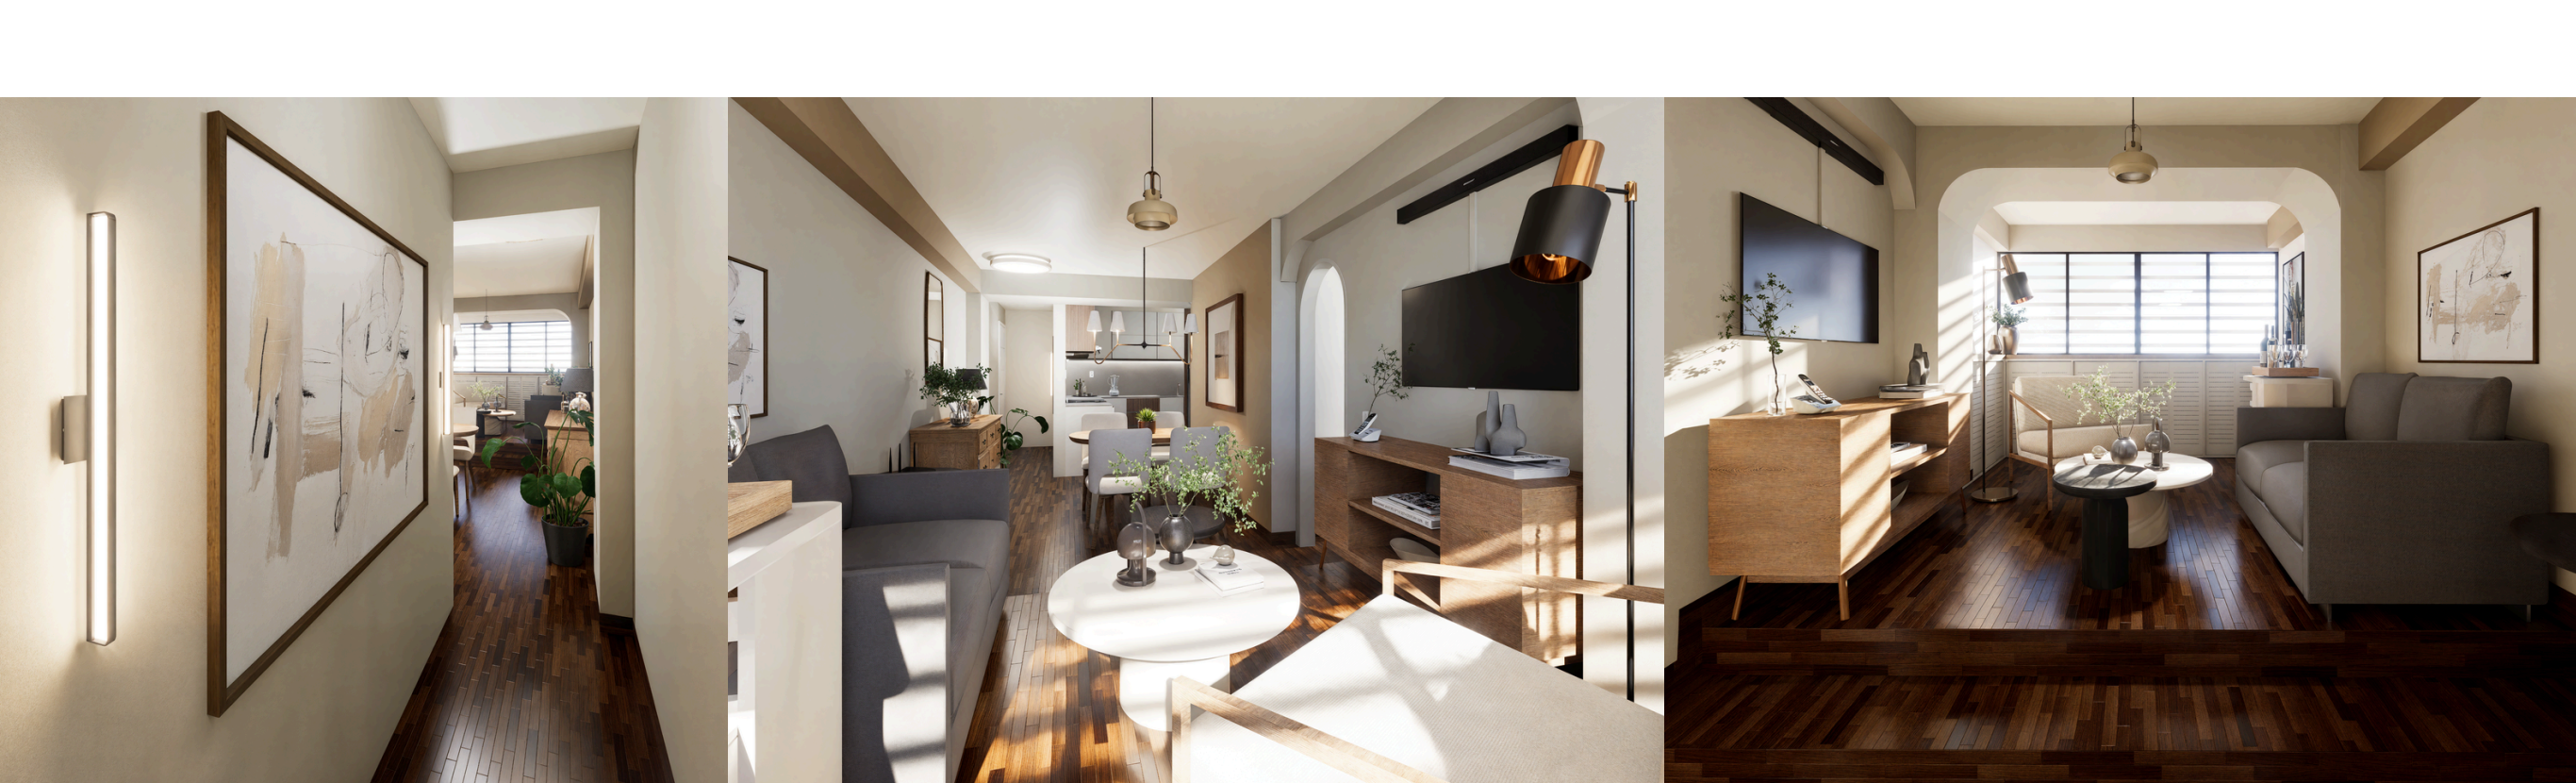

Step 3 – Design Development

We'll refine the concept together, then I'll prepare detailed floor plans, elevations, furniture selections (custom if needed), and finishes.

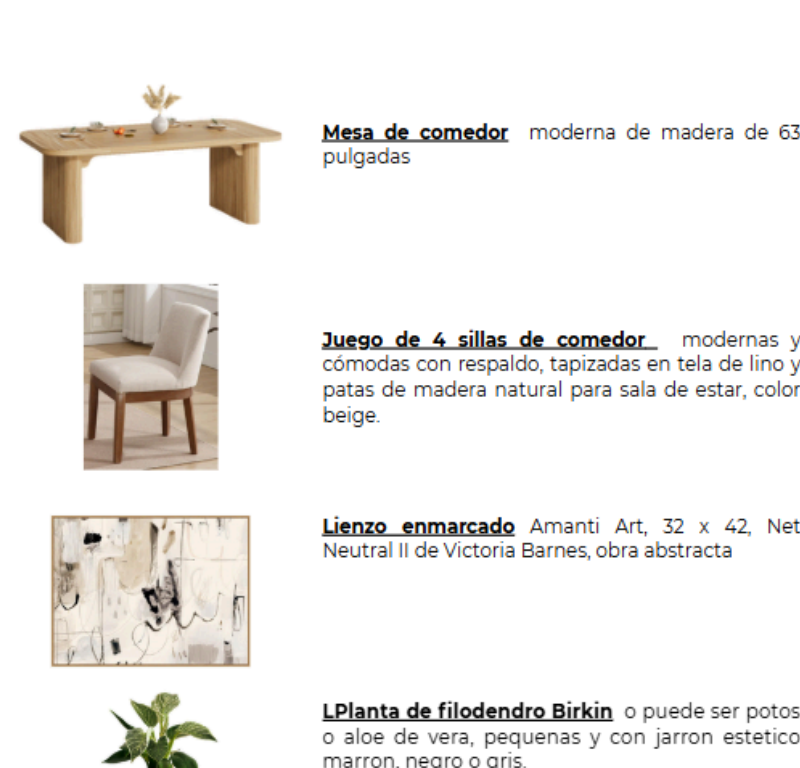

Step 4 – Visualization

You'll receive realistic 3D renders to help you imagine the final result before implementation.

Step 5 – Shopping & Implementation

I'll provide you with a shopping list with links and recommendations so you can bring the design to life at your own pace. If you're in the U.S., I will manage all purchases, coordinate with suppliers and deliveries, handle professional installation, and oversee the final styling of the space.
